

S. No.	Name	Title	Time	Hall
1	Dr. Anchal Dixit	Effects of Intrathecal Dexmedetomidine on Low-Dose Bupivacaine for Spinal Anesthesia in Patients Undergoing Perianal surgeries	09:00 - 10:30 am	Hall G
2	Dr. Sarala B.	Comparison of epidural dexmedetomidine and clonidine as adjuvants to bupivacaine	09:00 - 10:30 am	Hall G
3	Dr. Kanha Agrawal	Addition of dexmedetomidine as an adjuvants to local anesthetic agent in intravenous regional anesthesia	09:00 - 10:30 am	Hall G
4	Dr. S. Bharath	Prevention of Pain on Propofol Injection: Combination of Lignocaine and Nitroglycerine	09:00 - 10:30 am	Hall G
5	Dr. Uddalak Chatterjee	Comparison between propofol and dexmedetomidine on depth of anaesthesia- a prospective randomized trial	09:00 - 10:30 am	Hall G
6	Dr. Roopa N.	Effect of Intraoperative IV Lignocaine infusion on Sevoflurane requirement during Entropy guided General Anesthesia	09:00 - 10:30 am	Hall G
7	Dr. Savitri Inguva	To evaluate combination of dexmedetomidine and ketamine for sedation during spinalanesthesia in children	09:00 - 10:30 am	Hall G
8	Dr. Prachi Gupta	Effect of adding Dexmedetomidine, Clonidine or Fentanyl to intrathecal Bupivacaine on spinal block characteristics in gynaecological procedures	09:00 - 10:30 am	Hall G
9	Dr. Arun M G		09:00 - 10:30 am	Hall G
